SUMMARY

Passionate **Front-End Developer** with hands-on experience in building responsive and user-friendly web applications using **HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, and Bootstrap 5**. Focused on clean code, responsive web design, and excellent **UI/UX**. Skilled in creating interactive projects like **e-commerce** websites, dynamic forms with validation, and state management. Proficient in using **AI tools (ChatGPT, Grok)** for faster debugging and code optimization. Eager to contribute to innovative front-end development projects.

PROJECT

- **Responsive Food Ordering Website** - Developed a fully responsive e-commerce style food ordering website using HTML5, CSS3, JavaScript, and Bootstrap 5 - Implemented product menu, shopping cart functionality, and smooth mobile experience with cross-browser compatibility
- **React Login/Register Forms with Validation** - Built modern and secure Login/Register components using React.js and Tailwind CSS - Added form validation, error handling, and smooth user experience with dynamic UI updates
- **Interactive Web Applications** - Created practical tools including Tip Calculator, Electricity Bill Generator, To-Do List, Student Result Management System, and animated Like Button with count - Used JavaScript for client-side logic, state management, and responsive design across devices
- **Basic Counter & State Management Practice** - Developed a simple counter application in React.js to practice component-based architecture and state management

SKILLS

- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap 5, Responsive Web Design, Flexbox, DOM Manipulation
- **Tools & Version Control:** Git, GitHub, Visual Studio Code, Firebase
- **Productivity:** ChatGPT, Grok, DeepSeek
- **Languages:** English, Hindi, Odia

EDUCATION

Full Stack Development with Python – **Skyy skill Academy**

Bachelor of Technology (B.Tech) in Mechanical Engineering

Srinix College of Engineering, Balasore 2022 – 2025
